Learn about the history of Swamp Creek and ways we can all make it healthier

- * Did you know that Swamp Creek once supported record-setting runs of Kokanee salmon and had banks lined with blueberry farms?
- * Come join us to hear renowned local historian and fish biologist Jim Mattila present us with the fascinating story of what Swamp Creek used to be, what it is now, and how it got this way.
- * Zsofia Pasztor, local arborist, landscape designer, author, and creator of Farmer Frog will present us with ways streamside residents and others in the watershed can improve the health of the creek.

Following the event, there will be optional guided Swamp Creek site visits.
