

SNO-KING WATERSHED COUNCIL

PUBLIC WATER MONITORING EVENT MACROINVERTEBRATE SAMPLING SUNDAY, AUGUST 12, 10 AM

Tschet Cha Thl Creek 61st NE & NE 175th St, Kenmore

What lives in a creek? "Benthic macroinvertebrates", AKA stream bugs, are good long-term indicators of stream health. Prepare for a hands-on fun time and join us as we conduct our annual assessment of these important creatures.
