

# Ecology has revised the 2019 SWMMWW

## Executive Summary of the 2019 Revisions:

Replaced Hard Surfaces Redevelopment Threshold: The Minimum Requirement Thresholds for non-road related commercial or industrial redevelopment projects have been updated to require the project proponent to compare the value of the proposed improvements to the value of the Project Site (the limits of disturbance) improvements, rather than the Site (the entire parcel) improvements.

**SNOCO must now up date its Drainage Manual to incorporate this change, *but PDS will likely oppose this change.***
