

White Paper No. 6

Sealing of Engineered Permit Application Required

- Currently, Snohomish County PDS accepts permit documents without a professional engineer's signed seal;
- Without a signed seal, it cannot be determined who prepared and who is responsible for documents that require engineering expertise to prepare; and
- State law WAC 196-23-020 states in part:

“(1) Final documents are those documents that are prepared and distributed for filing with public officials, use for construction, final agency approvals or use by clients.”
