

Snohomish County's

PHASE I - MUNICIPAL STORMWATER PERMIT

S5.C.5.a.iii:

“No later than June 30, 2015, each Permittee shall adopt and make effective a local program that meets the requirements in S5.C.5.a.i through ii, above. The local program adopted to meet the requirements of S5.C.5.a.i through ii shall apply to all applications¹ submitted after June 30, 2015 and shall apply to applications submitted no later than June 30, 2015, which have not started construction² by June 30, 2020.”

Foot Note 1:

“In this context, “application” means, at a minimum, a complete project description, site plan, and, if applicable, SEPA checklist. Permittees may establish additional elements of a complete application.”

Foot Note 2:

In this context, “started construction” means, at a minimum, the site work associated with and directly related to the approved project has begun. For example: grading the project site to final grade or utility installation. Simply clearing the project site does not constitute the start of construction. Permittees may establish additional requirements related to the start of construction.
